# Austin Water – Center for Environmental Research

Austin Water – The University of Texas – Texas A&M University
A Partnership for Urban Ecology and Sustainability: Community, Ecology, Research located at the Hornsby Bend Biosolids Management Plant 2210 South FM 973, Austin, Texas 78725

Website: http://www.austintexas.gov/cer

## **CER Events June 2012**

### June 2 Saturday 8am meet at CER

- Austin-Bastrop River Corridor Partnership Travis County River Monitoring Trip
- Join Claude Morris and the Travis County Colorado River Monitoring trip for a day on the river monitoring birds and more, and help the Austin-Bastrop River Corridor Partnership learn more about the ecology of the Colorado River.
- Meet at the CER parking lot at 8:00AM
- A river trip to monitor birds and vegetation along the river and you <u>MUST</u> provide your own boat or rent one from Cook's Canoes in Webberville <a href="http://www.cookscanoes.com/">http://www.cookscanoes.com/</a>
- Contact Claude Morris at cgmorris@flash.net to participate
- More about the Austin-Bastrop River Corridor Partnership at the CER webpage http://www.austintexas.gov/cer

## June 5 Tuesday – NOON to 1pm AT WALLER CENTER Room 104

- CER Monthly Lunchtime Lecture by Kevin M. Anderson
- Downtown at Austin Water Headquarters [Waller Center, 625 East 10<sup>th</sup> St between Red River and I-35 Room 104]
- The Natural History of Texas: Biological Survey and Ecological Change
- The vast geography of Texas stretching from desert to bayou and high plains to the Rio Grande valley sets the stage for a diverse natural history. This natural history of Texas was documented by the work of scientists like Bailey and Oberholser in the great biological surveys of Texas and more literary types of natural histories in writings ranging from Lincecum to Bedichek and Wauer. What they all document is the vast changes that have occurred in the flora and fauna of Texas over time, and, today, ecological change is accelerating as land use and climate reshape the Texas landscapes making it difficult to summarize Texas natural history in a fifty-minute talk. Join me and see if I can do it.

#### June 9 Saturday 7am-11am and 4pm to dark meet at CER

- Hornsby Bend Bird Observatory Monthly Bird Survey
- The HBBO Bird Survey is open to all levels of birder interested in intensive monitoring, although this is not a field trip. In the morning, we have teams covering different areas of the Hornsby Bend facility, and they count numbers of all birds seen. It is 4 hours of hard hiking and counting, but lots of fun along the way. We meet again around 11am to tally up the species. The afternoon involves looking around for species missed that morning, and we go until sundown. More information about the CER HBBO program at www.hornsbybend.org

## June 16 Saturday – 730am – 11am at the CER

HBBO/Travis Audubon Society - Hornsby Bend Monthly Birding Fieldtrip — FREE!
 Meet at the CER 730am, no registration needed — all levels of birder welcomed, an easy morning of walking and learning the birds of Hornsby Bend. Bring binoculars and some water if the weather is warm. More information at <a href="https://www.travisaudubon.org">www.travisaudubon.org</a> and <a href="https://www.hornsbybend.org">www.hornsbybend.org</a>

## June 19 Tuesday – NOON to 1pm AT CITY HALL Boards and Commissions Room 1101

- CER Monthly Lunchtime Lecture by Kevin M. Anderson
- Downtown at City Hall
- The Natural History of Texas: Biological Survey and Ecological Change
- The vast geography of Texas stretching from desert to bayou and high plains to the Rio Grande valley sets the stage for a diverse natural history. This natural history of Texas was documented by the work of scientists like Bailey and Oberholser in the great biological surveys of Texas and more literary types of natural histories in writings ranging from Lincecum to Bedichek and Wauer. What they all document is the vast changes that have occurred in the flora and fauna of Texas over time, and, today, ecological change is accelerating as land use and climate reshape the Texas landscapes making it difficult to summarize Texas natural history in a fifty-minute talk. Join me and see if I can do it.

## Transportation Options for City Hall

- Automobile parking is available in the underground garage. Bring your garage ticket to the talk and we will validate it for free parking.
- Bicycle parking is available at ground level on both the Guadalupe and Lavaca sides of the block.
- Buses (select route to see schedule)
  - o Chavez & San Antonio: 3 northbound.
  - o San Antonio & 2<sup>nd</sup>: <u>3 southbound</u>.
  - o Colorado & 3<sup>rd</sup>: 10 southbound and 17 eastbound.

#### June 30 Saturday 9am – 1pm at the CER

- **Ecological Literacy Volunteer Day** Help maintain Hornsby Bend! Did you know that all the Hornsby Bend trails, habitat gardens, and kiosks were built and are maintained by volunteers? If you enjoy birding or walking along the Colorado River here, please join us in maintaining these amenities and supporting public access at Hornsby Bend.
- We do three hours work and one hour of learning about the ecology of the Colorado River and Hornsby Bend Wear work-clothes and work-shoes; bring water and binoculars if interested in birds.
- New! POTLUCK LUNCH AND More ECOLOGICAL LEARNING Bring food for our potluck lunch afterwards at 1pm and learn more at a presentation on ecology during lunch.

For more information about these events, contact Kevin M. Anderson at Kevin.Anderson@austintexas.gov or 972-1960
